

Director of Materials Management

Comprehensive Logistics Inc. is a leading 3rd Party Logistics Provider delivering highly efficient engineered solutions to complex supply chains. Services include Lead Logistics Provider (LLP), transportation management, warehouse and supply chain management, packaging and material handling, and brokerage. We have an opening for an experienced senior level, high energy Materials Management Director. The Corporate Office is located in Youngstown, OH but the location of this position is negotiable. The selected candidate must have proven organizational coaching leadership management style in the automotive/manufacturing industry. This candidate will be responsible for developing and implementing processes to optimize supply chain, minimize supply-demand and streamline fulfillment. Other responsibilities include but are not limited to ensuring that production schedules are achieved, setting production planning volume for site budgeting, managing inventory levels, manufacturing and distributing lot sizes, product distribution and demand forecasting, managing planning system parameters, generating ad-hoc reports to management and overseeing strategic planning, cycle count and compliance.

Education Requirements:

- Bachelors Degree in Business, Supply Chain, Material Management, Engineering or Information Technology; MBA Degree preferred

Minimum Qualifications

- **Must have Automotive/Manufacturing experience (Tier 1, 2 and/or OEM)**
- 15+ years of Supply Chain Materials Management experience with an emphasis in Manufacturing Management or Supervision
- Demonstrated success in supply chain process improvement activities
- Knowledge of Integrated Supply Chain Model (i.e. Part Sequencing, Sub Assembly, Cross Docking production, operation management, logistics, inventory transportation, warehousing and materials handling)
- Solid knowledge of Information Technology and ability to evaluate the ERP or MRP based material control systems to be installed to meet plant and customer expectations
- Proficient in Microsoft Office products (Word, Excel, Power Point, Access)
- Computer programming experience required (eg. VB, Access, MS SQL, etc.)
- *Preferred qualifications: APICS certification, CPIM certification, Six Sigma, Education in Production Mgmt, and Supply Chain Mgmt or Manufacturing*
